

ALTADENA CSD HISTORICAL PRESERVATION SUMMARY

Current Requirements

Currently the Altadena CSD identifies specific properties with potential historic significance. These properties are exempt from the CSD requirements. If any additions or changes to these are proposed, the County Historical Landmarks and Records Commission and Altadena Heritage are required to be notified.

Recently, a new Historic Preservation Ordinance was adopted that establishes the procedure for designating historic resources within the unincorporated County. More information about the Historic Preservation Ordinance can be found at planning.lacounty.gov/preservation.

Proposed CSD Revision

The CSD updates language to include any future properties that may be designated under the new Historic Preservation Ordinance. Notification to Altadena Heritage is still required prior to any additions or changes to the properties listed in the CSD.
